Bulk Billing

Hamilton Medical Centre will bulk bill patients 15 and under, and patients 65 years of age and over, with the exception of those attending for Compounding Chemist products and discussions. *Medicare has recently changed their Telehealth ruling so we are unable to bulk bill or do rebates for new patients or patients who have not been seen in the practice within a 12 month period*

Workers Compensation

All workers compensation consultations must be paid for on the day by the patient, unless a valid claim number has been issued and acceptance of liability has been made by the insurer.
